

Arizona Summer Weather Flying & Aircraft Performance/Maintenance

Video presentation and discussion on factors affecting flight safety, aircraft performance and maintenance considerations of Density Altitude, storms and elements of survival in the Arizona desert and mountainous terrain during the hot summer. Also a short review of DVT airport improvements and related information.

Directions: Enter main entrance from east side of 19th Ave, 1/4 mile south of Deer Valley Rd. intersection. Turn right into the parking lot west of the facility and park. Walk east across to the building opposite the parking area. Entrance is on the west side of the facility and will be illuminated. A guard will direct you to the conference room.
